OBJECTIVE

Aspiring Junior Software Developer with hands-on experience in ASP.NET gained through a comprehensive training program at Orange. Looking to leverage my skills in web development, problem-solving, and innovative thinking to contribute to a dynamic team and deliver high-quality software solutions that drive business success.

EDUCATION

- Bachelor's degree in computer science GPA: 85.1 (A+) Yarmouk University [2019 – 2023]

EXPERIENCE

full stack development trainee at Orange Coding School.

[Orange company] - [May 2024- August 2024] - [Three Months]

- As an intern at Orange, I gained extensive experience in web application development using ASP.NET.
- I managed databases, implemented security measures, optimized performance, and collaborated with a multidisciplinary team.
- This internship provided me with valuable technical and practical skills for future projects.
- better understanding of best practices in web application development.

Projects

- **Online Marketplace and Store Management System (Click to visit GitHub):**
 - Developed a comprehensive online marketplace and store management system using ASP.NET Core MVC, Entity Framework, and Bootstrap.
 - Enabled users to list, manage, and swap products seamlessly within the platform.
- **Mathematics-Competition-Platform (Click to visit GitHub):**
 - Developed a dynamic website for mathematical competitions, utilizing JavaScript for data storage, a secure admin dashboard, participant tracking, and stage management.
 - Enhanced user experience and streamlined operations at Orange Coding School.
- **Graduate Project Smart Online Store (Click to visit GitHub):**
 - Evaluated three recommendation algorithms: K-Nearest Neighbor (KNN), Apriori, and Collaborative Filtering.
 - KNN offers personalized recommendations, Apriori targets discounts for frequently purchased items, and Collaborative Filtering suggests top-rated items from similar users.

- **UNO game engine at Ayton company (Click to visit GitHub):**

- The UNO game was reimplemented using Java, allowing users to modify rules, add or remove cards, and apply design patterns.

LANGUAGES

- Arabic – C1 | English – B2

SKILLS

- **Personal Skills:**

- Effective Communication Skills.
- Organizational Skills.
- Problem Solving Skills.
- Flexible working hours.
- Eager to learn new technologies

- **SKILLS HIGHLIGHTS:**

- Python, C#
- OOP
- ASP.NET MVC Framework
- SQL Server.
- Web Services and APIs
- HTML/CSS
- JavaScript
- Bootstrap
